

Model Performance Test

Date	10 November 2022
Team ID	Team-591164
Project Name	International Debt Statistics
Maximum Marks	10 Marks

Model Performance Testing:

The project team shall fill the following information in the model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Dashboard design	No of Visualizations - 09
2.	Data Responsiveness	In our international debt statistics project, data responsiveness is our top priority. We ensure swift access to the latest IDS Country data, enabling users to retrieve, process, and visualize complex financial information seamlessly. Our system guarantees timely and efficient responses to user queries, empowering stakeholders with up-to-date insights to make informed decisions."
3.	Amount Data to Rendered (DB2 Metrics)	In our project, we closely track 'Amount Data to be Rendered (DB2 Metrics)' to efficiently process and present debt-related information, ensuring a responsive user experience.
4.	Utilization of Data Filters	In this project, we leverage data filters to fine-tune and customize data presentation, empowering users to extract specific insights from the wealth of information available.
5.	Effective User Story	No of Scene Added - 08
6.	Descriptive Reports	No of Visualizations / Graphs - 17
